

EZ UP RAISED FLOORING

With a one-of-a-kind, patented "J" shaped locking system and a 1" thick sturdy Veneer Core Plywood center, the EZ Up trade show floor system provides a unique lightweight foundation that is less than half the weight of most traditional raised floors. Durable and time efficient, this panel structure allows quick installation and dismantling with effortless maneuvering of electrical underneath. Offering a wide range of configurations, the trade show floor system is available in several finishes so that each use is unique to the booth design. Flooring and transition options include wood, laminate, and plywood surfaces so carpet can be added on show site.

Here are just a few benefits of our EZ UP raised floor system:

- Cost Effective
- Easy to Install & Dismantle
- Easy to Reconfigure
- Available for rental or Purchase
- Durable Panels and Transitions
- Assorted selection of finishes for flooring and transitions
- Electrical wiring is easily accessible under panels
- Half the weight of competitors' traditional raised platform floors
- Able to withstand heavy loads
- ADA compliant ramps are available
- Panels ship securely in custom crates

HOW IT WORKS

All Flooring Panels:
39-9/16" X 39-9/16"
